

The Percy Island Full Moon Party!

For nearly 30 years yachties have anchored in West Bay, brought their catch ashore, introduced themselves to other mariners and shared their stories long into the night on what is generally accepted by those who know, as a the well kept secret paradise that is Middle Percy Island. Her remote location has protected & preserved her, & still serves to bring out the very best in the people that choose to meet the challenge.

In 2009 a committed party re-roofed the A-Frame with materials donated from Canelands in Mackay to be able to once again welcome all from near and far to share this special location in friendship and hospitality.

A new era has begun for Middle Percy Island. Whilst acknowledging her rich history she embraces all that the future can offer to preserve & restore her treasures and share these with an ever inquisitive number of visitors. The Full Moon Party is an opportunity for guests to visit who do not have either their own vessel or access to one. Equipment brought for this event will only enhance the magic present at West bay. These are intimate low impact events occurring only 5 times per year.

IP will soon be available and more Full Moon events scheduled to help raise funds for restorative work
